FOREWORD ADÁN MEDRANO

Chef & Food Writer

To all my relations! Let's celebrate the culturally rich relations that food and drink make possible.

That's the message that jumped out at me when I first paged through this specially curated collection of Mexican beverage recipes. These ten beverages reveal

that the Mexican gastronomy is deliciously cosmopolitan, linked to global countries and cultures. Over time, travel and trade brought new ingredients to Mexico. In the hands of Mexican culinarians, those ingredients from faraway lands took on a Mexican expression that is original and indigenous.

For example, Café De Olla recalls Ethiopia, birthplace of coffee, and becomes a classic hot comforting drink, laced with aromatics, that are central to Mexican traditions. Horchata, made with almonds, is a link to the place where almonds come from, Iran. More obvious relations are those with South America, including Brazil and Paraguay who gave pineapples to the world. When the pineapple traveled north to Mexico, locals fermented and sweetened the pineapple to create the pre-conquest drink, tepache. And last but not least, this list of recipes uncovers a relation to South Texas, the Rio Grande Valley, where horticulturalists transformed a pale, bitter fruit from Barbados into a special type of grapefruit we know today, making it sweet and beautifully red. Ruby Red is the grapefruit used in the Paloma recipe.

Beverages are about relations, and in the hands of brilliant cooks they are memorable. They take us beyond just feeding and hydration. They not only hydrate and nourish the body, but they become the artistic creations through which we remember important moments and places in our lives. I can imagine the bonding of friendships over one or another beverage in this cookbook. When we enjoy any of these to mark celebrations like weddings, birthdays, anniversaries and celebrations of personal or public accomplishments they help to define those memories.

Each of these beverages is an example of the art of cooking, that dimension of food and cooking that affects social relationships in tangible and powerful ways. Culinary artists create dishes and drinks to make people enjoy a moment of pleasure and connectedness. We don't drink these beverages just to be nourished, to survive. It's important, of course that we survive, but more important is how we do so, with flair, with delicious pleasures and with celebration of relationships. Drinks are meant to be shared. That's the gift of a true culinary artist, a well-balanced, delicious drink that builds memories and strengthens social cohesion.

The cosmopolitan society that is Mexico, however, is rooted in the many indigenous civilizations that give Mexican recipes their core taste and character. Recipes crop up from the experience of being in a certain landscape. Even the names of states are actually indigenous linguistic forms like Oaxaca, Chihuahua, Coahuila and, closer to home, Texas, the name ascribed to the indigenous Caddo people.

It's an indigenous creative ability to adapt new ingredients and, from differences, make something not just nutritious but delicious. There is a practice among the indigenous Coahuiltecan people of Texas to mark the end or beginning of a celebration with a saying, "to all my relations!" It is similar to the English raising a glass to toast, "to your health," or the Spanish, "salud." So as you enjoy these recipes, raise a glass or cup in honor of all the relations they express. We are all brothers and sisters of one planet. In Coahuiltecan, the indigenous phrase for "to all my relations" is: "Taguajayo nami tuchem naptu!"

Adán Medrano is a food writer and chef, specializing in the indigenous foods of Texas and the Americas. His book, "Truly Texas Mexican: A Native Culinary Heritage in Recipes," published by Texas Tech University Press, received the "Finalist, Book Of The Year" award from Foreword Reviews. In his most recent history and cookbook, "Don't Count the Tortillas: The Art of Texas Mexican Cooking," Medrano focuses on how this singular cuisine is showing the way towards a better understanding of what it means to be "American."

NOTE ABOUT RECIPE TRANSCRIPTIONS

UTSA librarians and archivists transcribed recipes as they originally appeared in the cookbooks. Some recipes, especially those from manuscript cookbooks, occasionally use non-standard and variant spellings in Spanish. Common use of abbreviated instructions, along with the difficulty of reading handwriting and tears or scratched-out text, add an extra level of difficulty to the challenge of transcribing and interpreting historical recipes.

NOTA SOBRE LAS TRANSCRIPCIONES DE LAS RECETAS

Los bibliotecarios y archivistas de la Universidad de Texas en San Antonio (UTSA) transcribieron las recetas tal y como aparecen en los libros de cocina. Algunas recetas, especialmente las de manuscritos, ocasionalmente utilizan graffías atípicas y variantes en español. El uso común de instrucciones abreviadas y la dificultad de leer textos escritos a mano añaden un nivel de dificultad al transcribir e interpretar recetas históricas.

* A las flores de hibisco secas se les llama jamaica en México y son utilizadas para preparar una especie de té.

SPICED COFFEE

- ⌘ Preparation Time: 3 minutes
- ⌘ Cooking Time: About 20 minutes
- ⌘ Utensils: Clay pot and individual mugs

INGREDIENTS

- ⌘ 6 cups of water
- ⌘ 1 cinnamon stick, about 8 mm thick
- ⌘ 6–8 thin slices of cinnamon stick, about 4mm thick
- ⌘ 2 cloves
- ⌘ 100 grams (about 1/2 cup) piloncillo sugar
(Mexican brown sugar sold in cones)
- ⌘ 50 grams (about 1/2 cup) of Mexican chocolate,
often sold in tablets
- ⌘ 100 grams (about 1 cup) ground coffee

METHOD OF PREPARATION

- ⌘ Bring water to a boil and then add the thick cinnamon stick, cloves, piloncillo sugar, and chocolate. Lower the heat. When it returns to a boil, skim off the foam created by the chocolate.
- ⌘ Once the liquid comes back to a boil, add the coffee and remove from heat. Leave near the heat to keep warm as the coffee brews, but the liquid should not be boiling at this point.
- ⌘ Serve by taking the coffee from the top, thus avoiding agitating the sediment at the bottom of the pot.
- ⌘ In each mug (half-filled), place a thin cinnamon stick slice in place of a spoon.

CAFÉ DE OLLA

- ⌘ Tiempo de cocción: 20 minutos aproximadamente

- ⌘ 100 gramos de café molido

MANERA DE HACERSE

- ⌘ Ponga el agua a calentar en la olla; cuando empiece a hervir, añada la raja de canela gruesa, los clavos, el piloncillo y el chocolate; baje la flama; cuando vuelva a hervir, quite la espuma al chocolate.
- ⌘ En el momento que vuelva a soltar el hervor, incorpore el café y apague. Déjelo cerca de la lumbre para mantenerlo caliente y para que se asiente el café, pues éste nunca debe hervir.
- ⌘ Sirva usando un jarrito a modo de cucharón. Tome el café de la parte más superficial, evite agitar el sedimento.
- ⌘ En cada jarrito (servido solo hasta a la mitad) coloque una raja de canela delgada en lugar de cucharita.

Librarian's Note:

UTSA Special Collections' Mexican Cookbook Collection includes food and household-related texts as well as cookbooks. Ireneo Paz's *Diccionario del hogar* (*Dictionary of the home*), issued between 1901 and 1904, is one such work that chronicles household operations both within and outside the kitchen.

Although titled as a dictionary, Paz's two-volume work is really more like an encyclopedia. It includes not only recipes and tips on cooking, but also information about medicine, economics, the care of domestic animals, horticulture and gardening, fashion, and more.

A few entries seem a bit surprising at first glance like this one for horchata. Traditionally, horchata refers to a rice-based beverage, but in this instance, it is described as something quite different.

Spines of *Diccionario del hogar* by Ireneo Paz
(1901-1904)

We include it here as a snapshot of how information was disseminated in the early 20th century. When one considers that many readers probably had access to relatively few other books during this time (let alone Google or the internet), the insight into Mexico's culinary history provided by entries like this is impressive.

HORCHATA

INGREDIENTES

- ⌘ Semillas de limón
- ⌘ Agua
- ⌘ Azúcar al gusto

MANERA DE HACERSE

- ⌘ Bebida hecha con pepitas de limón, lavadas, molidas, coladas y desleídas en agua, que se endulza con azúcar.

HORCHATA DE LAS CUATRO SIMIENTES FRÍAS

INGREDIENTES

- ⌘ Semillas de melón, sandía, calabaza y pepino
- ⌘ Agua
- ⌘ Azúcar al gusto

MANERA DE HACERSE

- ⌘ Se muelen juntamente las pepitas de melón, de sandía, de calabaza y de pepino; se cuelan, se deslíen con agua y se endulzan con azúcar.

Una nota de la bibliotecaria:

La colección de libros de cocina mexicana de UTSA incluye textos relacionados con la comida y el hogar, así como libros de cocina. El *Diccionario del hogar* de Ireneo Paz, publicado entre 1901 y 1904, es una de esas obras que narra las operaciones domésticas tanto dentro como fuera de la cocina.

Aunque fue titulado como un diccionario, los escritos de Paz comprendidos en dos volúmenes se asemejan más a una enclopedia. Incluyen no solo recetas y consejos de cocina, sino también información sobre medicina, economía, cuidado de los animales domésticos, horticultura, jardinería, moda y más.

Algunas entradas parecen un poco sorprendentes a primera vista como ésta para horchata. Tradicionalmente, la horchata se refiere a una bebida a base de arroz, pero en este caso, se describe como algo muy diferente. La incluimos aquí como una imagen de cómo se difundió la información a principios del siglo XX. Cuando se considera que muchos individuos probablemente tuvieron acceso a relativamente pocos libros durante este tiempo (y mucho menos a Google o internet), la información sobre el pasado culinario de México proporcionada en entradas como ésta es impresionante.

BANANA ATOLE

INGREDIENTS

- ⌘ Bananas
- ⌘ Milk
- ⌘ Cinnamon stick
- ⌘ Sugar to taste

METHOD OF PREPARATION

- ⌘ Peel ten ripe bananas. Remove any threads and mash the fruit.
- ⌘ Place over the fire two liters (about 33 ¾ ounces or 4 cups) of boiled milk, 400 to 450 grams (2 to 2 ¼ cups) of refined sugar to taste, and a cinnamon stick. When the mixture comes to a boil and begins to froth, add the mashed bananas and two tablespoons of honey. Simmer over low heat for half an hour. Remove from heat, strain, and return to low heat, adding a cup of cream and a little corn meal or nixtamalina dissolved in milk, to thicken the atole to taste.

Librarian's note:

Among the collection's most interesting holdings is a pair of railroad freight and passenger ledgers from Huamantla, Tlaxcala, Mexico dated 1919-1927. These ledgers were used from the 1920s to the 1940s to scrapbook recipes clipped from newspapers. The scrapbooks include recipes from throughout Mexico and from as far afield as Puerto Rico and South America. In most recipes, "plátano" commonly refers to plantains. However in this case, "plátano de Roatán" or "plátano de Costa Rica" refers to Cavendish bananas – the sweet yellow bananas commonly found in U.S. grocery stores.

ATOLE DE PLÁTANO

INGREDIENTES

- ⌘ Plátanos maduros Roatán o Costa Rica
- ⌘ Leche
- ⌘ Canela en rama
- ⌘ Azúcar al gusto

MANERA DE HACERSE

- ⌘ Se mondan diez plátanos maduros Roatán o Costa Rica, se les quitan las hebras y se muelen.
- ⌘ Se pone al fuego un cazo con dos litros de leche hervida, 400-450 gramos de azúcar refinada, según se quiera de dulce y un trocito de canela y cuando empiece a hervir se espuma y se ponen los plátanos molidos y dos cucharadas de miel de colmena, se deja hervir a fuego suave media hora, se retira, se cuela y se vuelve a poner a fuego suave, añadiendo una taza de crema y harina de maíz o nixtamalina disuelta en leche, en cantidad suficiente para que espese al gusto.

Una nota de la bibliotecaria:

Entre las posesiones más interesantes de la colección se encuentran un par de libros de contabilidad de carga y pasajeros de ferrocarriles de Huamantla, Tlaxcala, México, fechados entre 1919 y 1927. Estos libros se utilizaron desde 1920 hasta 1940 como álbumes de recortes con recetas de periódicos de México, Puerto Rico y Sudamérica. En esta receta, "plátano de Roatán" o "plátano de Costa Rica" se refiere a los plátanos Cavendish, los amarillos y dulces que se encuentran comúnmente en las tiendas estadounidenses.

ACKNOWLEDGMENTS

UTSA's Mexican Cookbook Collection includes over 2,000 titles in English and Spanish documenting the variety and history of Mexican cuisine from 1789 to the present, with most books dating from 1940-2000. In addition to broad general coverage, the collection includes concentrations in the areas of regional cooking, healthy and vegetarian recipes, corporate advertising cookbooks, and manuscript recipe books.

The core of the collection consists of more than 500 books donated by San Antonio resident Laurie Gruenbeck in 2001. Gruenbeck acquired the cookbooks during her travels in Texas and Mexico over 30 years. The collection continues to grow through purchases and gifts.

Some of the work presented in "Recetas: cocinando en los tiempos del coronavirus" includes work previously published in "La Cocina Histórica," a retired blog produced by rare books librarian Juli McLoone.
